DETAILED ACTION

Allowable Subject Matter

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

U.S. Patent No. 6,493,372 to Boucart et al. and U.S. Patent Application No. 2004/0218655 to Tandon et al. both teach prior art VCSEL configurations. However, with respect to independent claims 1, 12, and 18, Boucart and Tandon, as well as the other prior art of record, fails to teach or suggest a tunnel junction having a p-layer including GaPSb or AlGaPSb. Therefore, independent claims 1, 12, and 18, as well as all respective dependent claims, are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation of Pertinent References

3. The following patent documents show additional VCSEL configurations and, even though not relied upon, are considered pertinent to Applicant's disclosure:
 - a. U.S. Patent Application Publication No. 2006/0002444 to Wang et al.
 - b. U.S. Patent Application Publication No. 2005/0253164 to Bhat et al.

Art Unit: 2821

c. U.S. Patent No. 6,933,539 to Bhat et al.
